

Side clamps

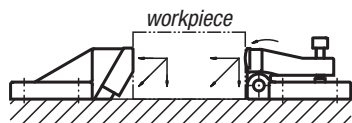

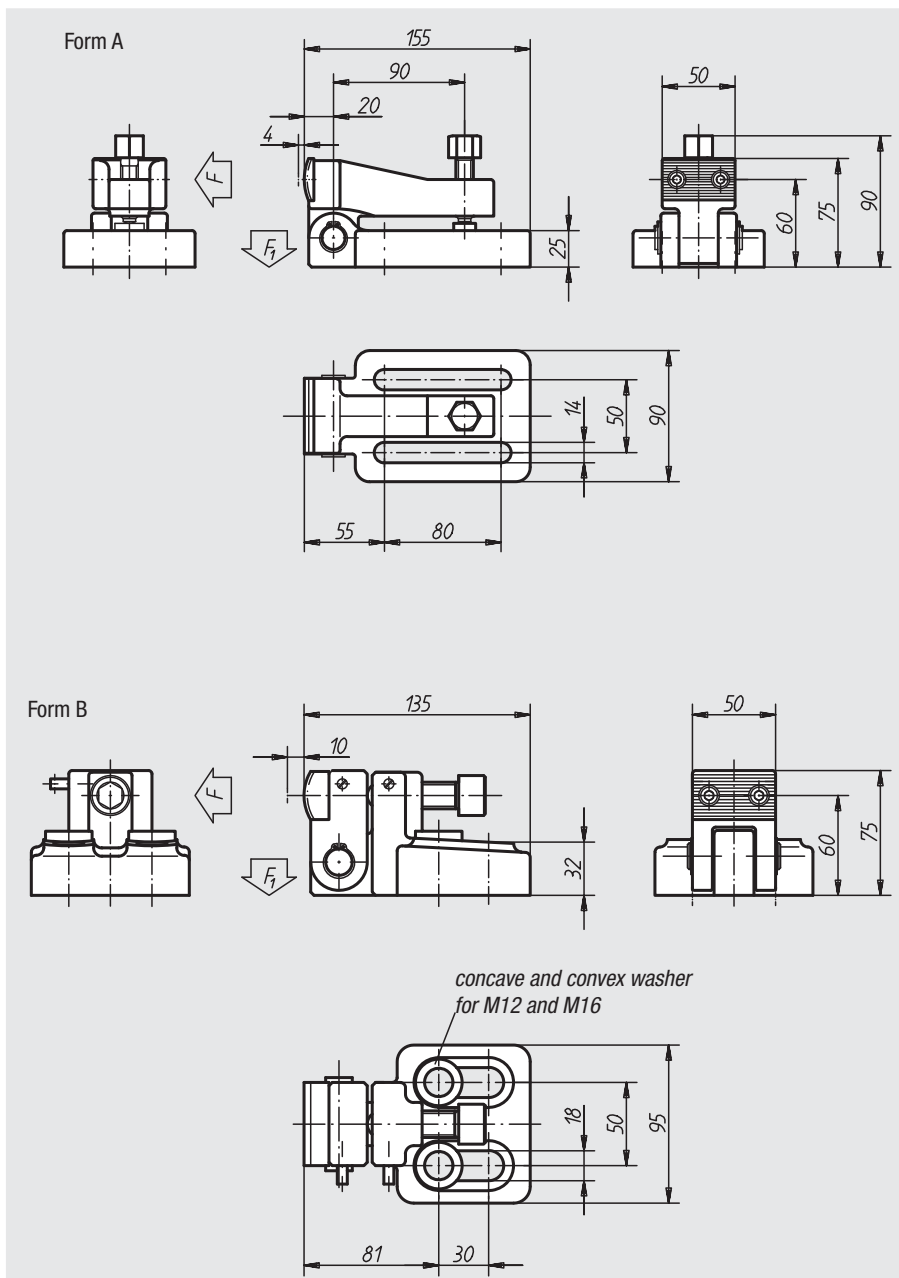

Material:
 Body: nodular graphite cast iron (GJS);
 jaw: hardened tempered steel

Surface finish:
 painted black;
 jaw: polished

Sample order:
 nlm 04530-03

Note:
 The side clamp presses the part for machining against the side stop, at the same time the part is prevented from lifting up.
 The side clamps and stops are tightened with DIN 912 cylinder bolts. Secure clamping is guaranteed where the side clamp and stop are used in pairs.

Order No.	Form	F kN	F1 kN	Tightening torque Nm	Approx. weight kg
04530-01	A	29	1,3	38	2,400
04530-03	B	58	2,4	150	2,900
