

Sheet steel swivel and fixed castors

heavy-duty version

Material:

Housing in strong sheet steel; wheels with steel welded wheel body and tread in Extrathane

Surface finish:

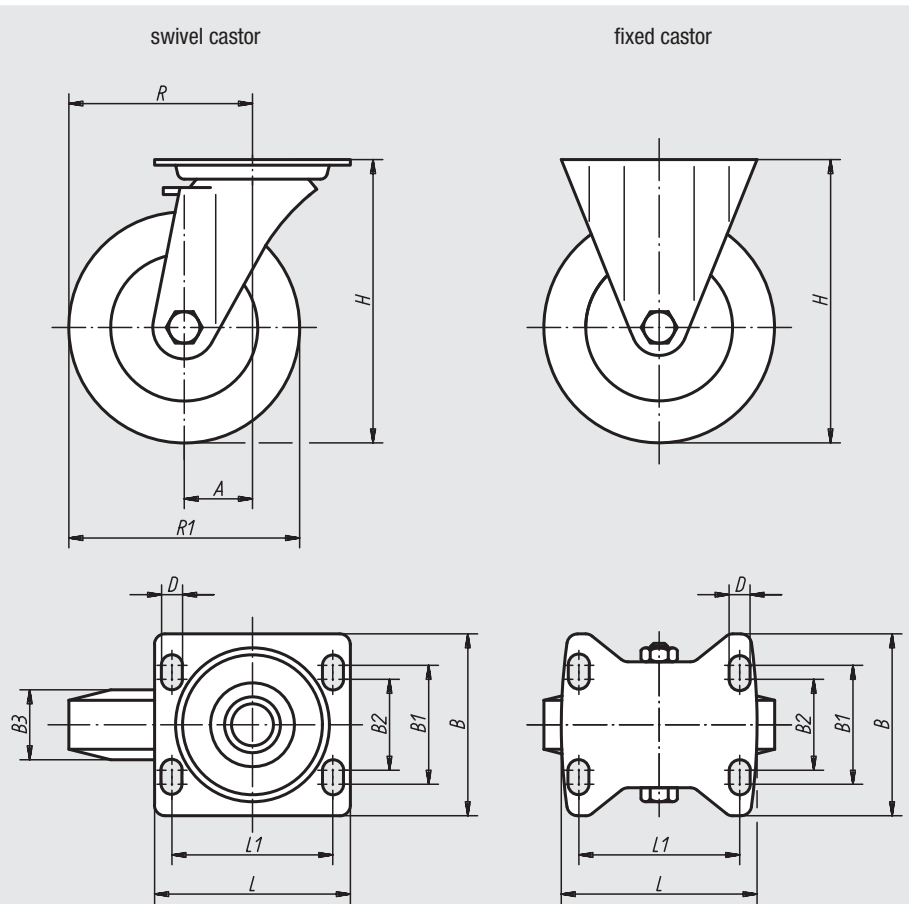

Pressed housing; swivel castor housing with heavy fork and top plate, screwed and secured with a very robust swivel head bolt; additionally reinforced swivel head by special shaped and hardened bearing seats

Sample order:

nlm 95030-16050

Note:

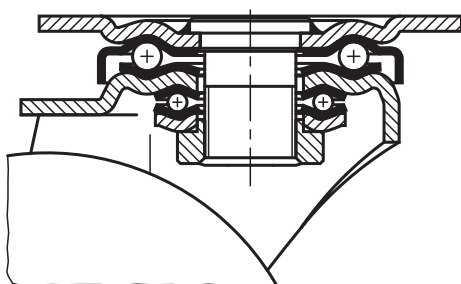

These castors and wheels are particularly insensitive against shock and impact loads. They are characterised by their abrasion-resistance, elasticity and low-noise rolling performance. Wheel axle screwed.

wheel and swivel head brake „stop-top“

swivel head bearing:
